RECOGNIZED

APR Design® for Recyclability

The Association of Plastic Recyclers (APR) is pleased to recognize **COIM** for meeting the highest criteria for recyclability according to the APR Design® Guide for **NOVACOTE SF 716A + CA 336.**

Design for recyclability leads to less waste, more efficient use of limited natural resources, and increased supply of high-quality post-consumer recycled content.

This recognition was achieved through the *Critical Guidance* path. Please see Recognition Letter for full product details and specifications.
